

Cartoon Faces – Front Views

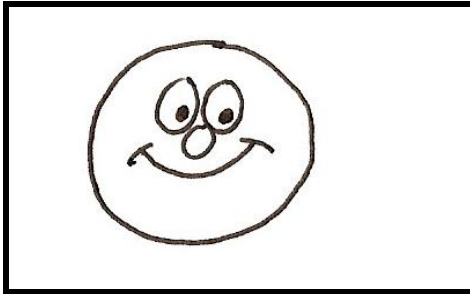

First draw a circle...

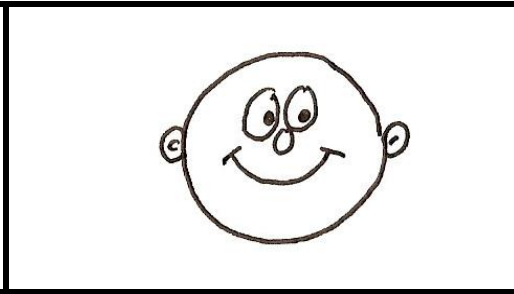

Then the eyes...

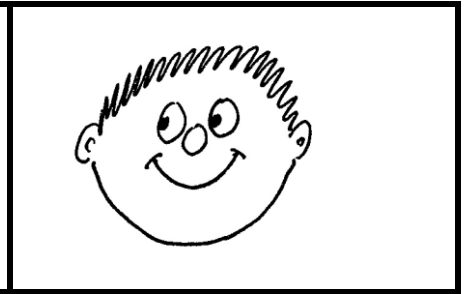

Put in the nose...

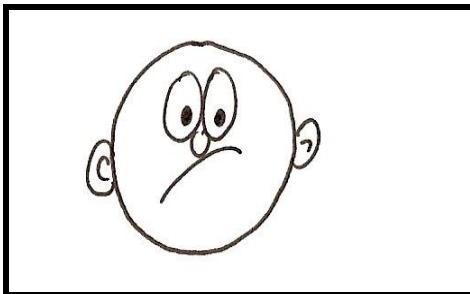

That's better – a nice smile...

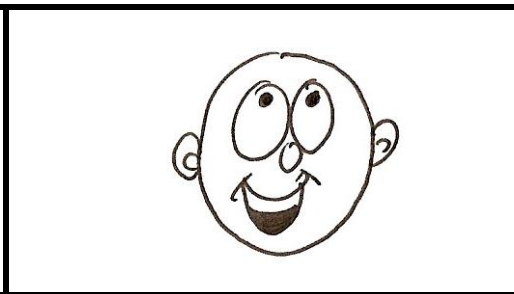

And the ears...

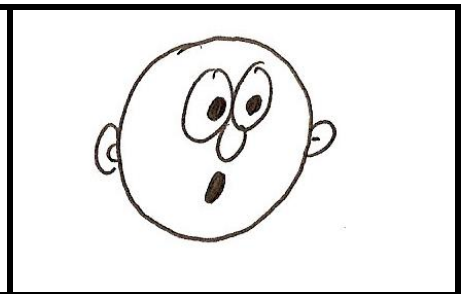

A squiggle for the hair

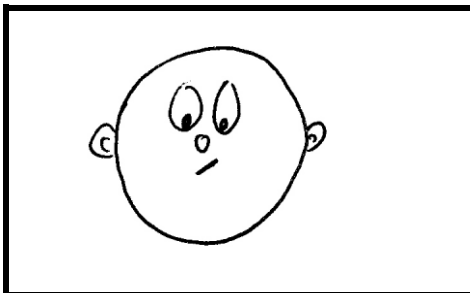

Now let's do variations...

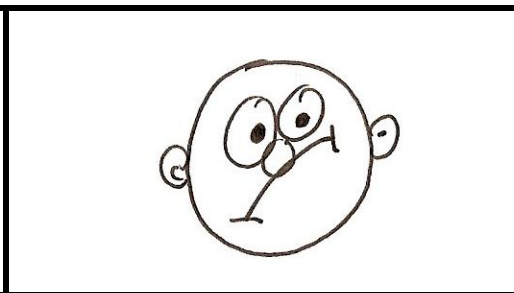

Mouth open – see the teeth...

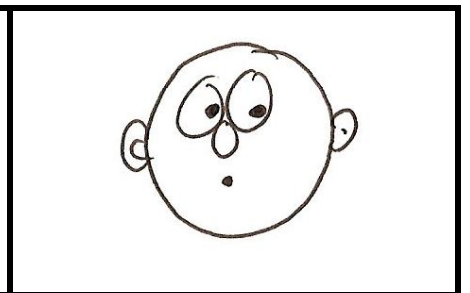

Oh my goodness...

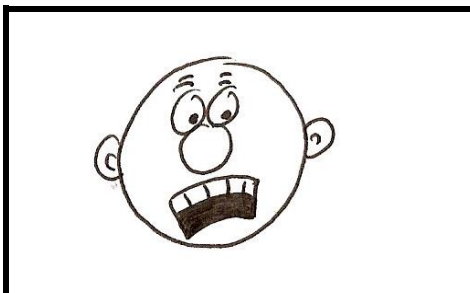

Short line for the mouth...

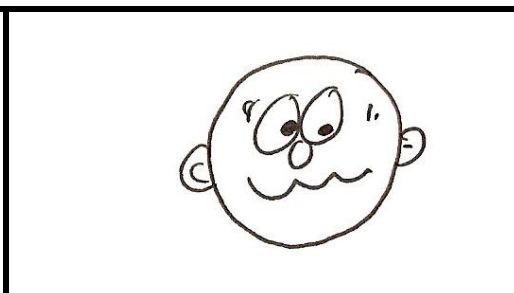

A more dramatic expression...

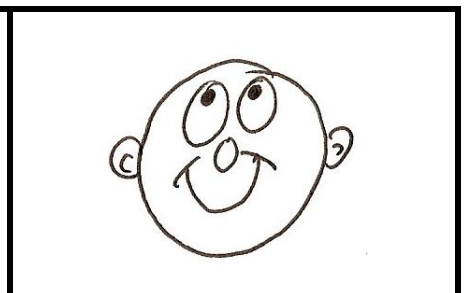

Oh what's going on here?

Draw individual teeth...

Squiggle for mouth...

Just happy

Cartoon Faces – More Front Views

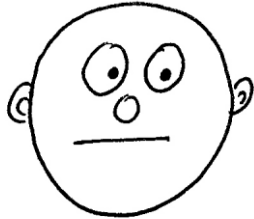

See how the eyes are done...

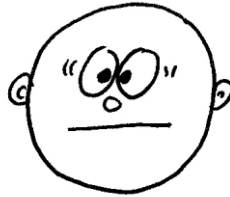

And another way to do them...

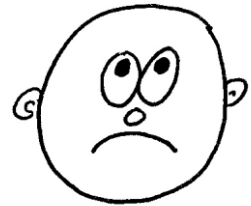

A bit of a cheesy grin...

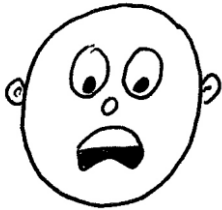

Straight line mouth...

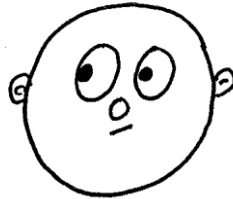

Cross-eyed...

Down in the mouth...

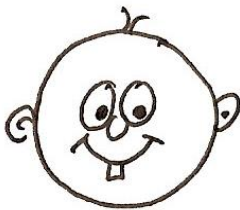

Now try this mouth...

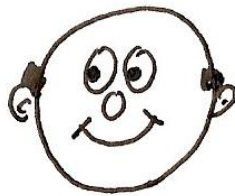

Angled mouth and eyes to side...

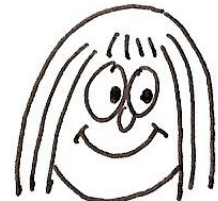

Have a go at this mouth...

Hair and tooth make a toddler...

Much older with this hair...

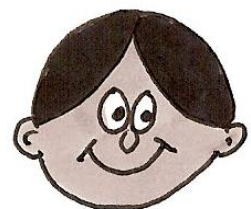

While we are on hair...

Let's try some curls...

Or no hair – but add glasses...

Shading in for a darker skin
